

16 laptops stolen from RJ Computers

AMRITA TEJASVI
New Delhi, Oct 31

Theft incidents are on rise in IT market. Just a week back, a theft incident took place at Ghaziabad based Aakriti Computers where a group of burglars fled away with 10 laptops worth Rs 5 lakh. Now, another incident occurred on October 25 where 16 laptops worth Rs 5.5 lakh were stolen from Nehru Place based RJ Computers.

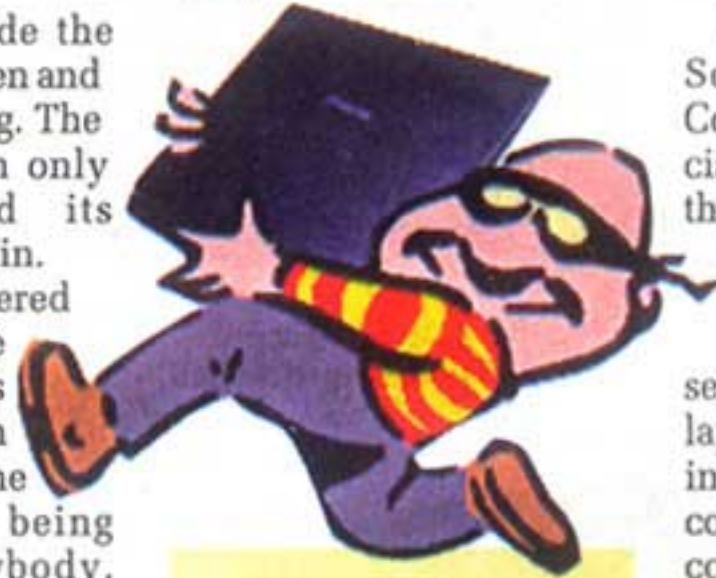

Ratan Lal Jain, Partner of RJ Computers, first noticed the incident when he came to open the shop next morning and found the locks tampered.

"When I came to office on Sunday, I found that the locks of shutters were

tampered and inside the shop, boxes were open and laptops were missing. The accused have taken only the laptops and its accessories." said Jain.

He further registered an FIR in the police station. Police is interrogating with the employees of the company. About being suspicious of anybody, Jain clarified that it is difficult to specify anybody, as the incident does not give a clear picture of who could be involved.

"It cannot be our employees because they have been with us for the last 10-12 years and no other costlier items has been touched. It seems that the involved gang deals

only with laptops," he said.

Swarn Singh, Joint Secretary of All Delhi Computers Traders Association (ADCTA) informed that the association is giving all possible support to RJ Computers.

"We are circulating the serial number of the stolen laptops to the associations in Delhi and also across the country so that if anybody comes across the item, he can inform us," shared Singh.

Neeraj Jain, Business Partner of RJ Computers informed that after the incident, the security system in the company has been geared up but still shop owners as well as the government has to be more proactive in addressing the increasing theft issue in the market.
